

# Physical Activity and Physical Education in TENNESSEE

## PHYSICAL ACTIVITY:

Recess, walking indoors or outdoors, and kickball, or other forms of physical activity that promote fitness and well-being.

## PHYSICAL EDUCATION:

A pre-K through grade 12 standards-based program of physical education-related instruction. Physically educated students demonstrate competency in motor skills and movement patterns needed to perform a variety of physical activities.

As of July 2017, it is the duty of each LEA to integrate a physical activity minimum of:

FOR ELEMENTARY SCHOOL STUDENTS

FOR MIDDLE & HIGH SCHOOL STUDENTS

PER FULL  
SCHOOL  
WEEK

Time spent in physical education class may count toward the physical activity minimum requirements, but physical activity may not take the place of physical education.

An LEA is required to offer elementary students at least one 15 minute period of physical activity per day.

P.E. programs are to be provided annually for kindergarten through grade 8, but a minimum number of minutes or days per week that students should participate in physical education classes is not required.

Walking to and from class does not count toward meeting the physical activity requirements in state law.
